Bring More Customers to Your Doors With a Branded, Interactive Wake Up Call Campaign

Snoozester creates award-winning wake up call marketing campaigns that increase product, brand, event and cause awareness. Boost your bottom line with a custom wake up call campaign during the upcoming 2008 holiday season. Encourage your customers to wake up early and head to your stores to take advantage of the holiday sales. The campaign allows your customers to go online and schedule wake up calls to their home or mobile phones.

The program will be customized to meet your needs and it can be easily integrated into any other promotion that you are planning for this holiday season. The call audio can be the voice of a celebrity or you can choose from a pool of Snoozester's voiceover talent professionals.

Contact your Snoozester representative to learn how Snoozester can help your ***bottom line*** on **Black Friday**.
